SMART Goal

Describe the summative SMART goal you have identified for this program (a goal that is Specific, Measurable, Achievable, Relevant, and Timely), either related to student outcome or consistent with the purpose of the grant.

By the end of 2021-2022, Smith Middle School will have earned a campus rating of "C" according to the Texas State Accountability System.

Addendum 3 Student Outcomes Performance Template

Measurable Progress

Identify the benchmarks that you will use at the end of the first three grant quarters to measure progress toward meeting the process and implementation goals defined for the grant.

First-Quarter Benchmark

- 100% of students will be given (3) Universal Screeners in Reading and Math; Beginning of Year (BOY), Middle of Year (MOY), End of Year (EOY).
- Operating Partner will conduct four (4) Nine-Week Benchmark Assessments in Reading and Math.
- Operating Partner will provide Summary Reports to the District for Universal Screeners and Benchmark Assessments.

Measurable Progress (Cont.)**Second-Quarter Benchmark**

- 100% of students will be given an interim assessment that will represent a 10% improvement over the first quarter benchmark
- Interim assessment will show a 5% reduction in gaps from the previous year's state accountability data
- Discipline referrals will be down 25% from the same time last year
- Student attendance will improve by 1 percentage point from the same time last year

Third-Quarter Benchmark

- 100% of students will be given an interim assessment that will represent a 15% improvement over the first quarter benchmark
- Interim assessment will show a 10% reduction in gaps from the previous year's state accountability data
- 70% of students will demonstrate mastery of kindergarten standards on the end of year benchmark assessment
- Discipline referrals will be down 35% from the same time last year
- Student attendance will improve by 2 percentage points from the same time last year

Project Evaluation and Modification

Describe how you will use project evaluation data to determine when and how to modify your program. If your benchmarks do not show progress towards meeting your summative SMART goal, describe how you will use evaluation data to modify your program for sustainability.

The summative SMART goal and benchmarks will be continuously monitored by Phalen Leadership Academies (PLA), school leaders, district staff and the board. School leaders will have access to comprehensive data dashboards that enable the use of real-time data to inform campus decision making. Dashboards will incorporate information from all schools, collaborating institutions of higher education and certification partners and provide clear and up-to-date data on each student's progress throughout their experience to ensure they are on track. School leadership will have the autonomy, with support from PLA and district staff, to adjust school and classroom strategies as we work towards our goals. In addition to these school based supports, PLA staff will assume a project manager role to ensure that our benchmarks remain on track and that school leaders and teachers are well supported throughout the process.

Beaumont ISD has reflected these and other goals in the performance contract giving operational authority to the PLA. Failure to meet the agreed upon goals in the agreed upon time-frame will lead to probation or revocation of the operating contract.

PLA will continuously use evaluation data to ensure that each school in the zone complements one another in terms of programming and operations in order to reach the identified benchmarks.

The District is requiring that Renaissance STAR 360 assessment be used to establish initial baseline data at the beginning of the year, reassessing at mid-year and end of the year. Benchmark assessments will be based upon the partner's curriculum requirements.

Statutory Requirements

1. Describe the roles and responsibilities of the eligible applicant, any partner organizations, and charter management organizations, as applicable, including the administrative and contractual roles and responsibilities of such partners.

Key responsibilities of the BISD Board include: Approving applicants and executing a written charter performance contract that includes provisions as required by law and establishes the legally binding terms under which the campus charter will operate and be evaluated during the charter term and for renewal; Conducting oversight and evaluation of the charter partner in accordance with the performance contract; Making final decisions with regard to renewal, revocation, probation, or other interventions. Key responsibilities of the District administration include: Monitoring student progress; Ensuring fiscal responsibility and that District resources are utilized efficiently; Ensuring that the charter partner adheres to applicable District policies; Ensuring that District services are provided in conformity with the performance contract; Making recommendations to the Board on the renewal, revocation, probation, or other intervention of the charter, as appropriate and based on the terms outlined in the District's performance contract with the charter partner. Key responsibilities of the charter partner include: Managing and operating identified Beaumont ISD schools with defined autonomies over people, time, money, and programs as agreed upon in the performance contract; Meeting student performance metrics as agreed upon in the performance contract; Maintaining fiscal responsibility and that District resources are utilized efficiently; adhering to applicable District policies. Texas Partnership Benefits Application pg 12

2. Describe the quality controls agreed to between the eligible applicant and the authorized public chartering agency involved, such as a contract or performance agreement, how a school's performance in the state's accountability system and impact on student achievement (which may include student academic growth) will be one of the most important factors for renewal or revocation of the school's charter, and how TEA and the authorized public chartering agency involved will reserve the right to revoke or not renew a school's charter based on financial, structural, or operational factors involving the management of the school.

The contractual performance standards align with state academic accountability standards and financial/operational/governance compliance requirements. The district will implement a performance and compliance monitoring system to drive evidence-based decisions regarding charter renewal, revocation, and probation or other interventions. Operators shall provide information/data to the District pursuant to state law and the District's reporting schedule using a state-approved student management system. Operators must report campus performance separately. Annually, the Board shall evaluate each campus against contractual performance standards. Termination and renewal are explicitly tied to academic performance standards as primary factors but may also be terminated for material compliance breaches. Evaluation results will be communicated to the operator's governing body in a written report summarizing compliance and performance, including areas of strength and improvement. The Board will publish an annual report that provides performance data for each chartered campus. See Performance Contract, pg 29-31; Texas Partnership Benefits Application pg 13-14

3. Describe how the autonomy and flexibility granted to the proposed charter school campus is consistent with the definition of a charter school in Section 4310, including how the proposed charter school campus will have a high degree of autonomy over budget and operations and personnel decisions. Include a detailed description of the ways in which the proposed charter school campus will be permitted to govern autonomously, as evidenced by the day-to-day decision makers at the campus and their input with regard to the school's curriculum, calendar, budget, and daily operations. For a charter school campus authorized by the local board of trustees pursuant to TEC, Chapter 12, Subchapter C, describe how this autonomy is above and beyond the degree of flexibility and autonomy afforded to traditional campuses within the school district.

The autonomy of PLA as operator shall be limited only by applicable federal and state (per Subchapter C) and by any local requirements explicitly identified in the Performance Contract. The Board shall recognize the governing board of the campus charter as independent and autonomous from the Board and District, with full authority and accountability for the campus charter's performance and operations including, but not limited to, authority to manage curriculum and instruction, calendars, schedules budgets, staffing (including evaluation and compensation) and all aspects of daily operation. This autonomy to both govern and manage the daily operations of the campus exceeds that of traditional campuses in each of these domains, permitting, for instance, PLA to set its own staffing levels, salary and evaluation policies. Partnership Application pg 13.

SEE ADDITIONAL TEXT THROUGHOUT EACH SECTION OF THE PERFORMANCE CONTRACT FOR ALL GUARANTEES OF AUTONOMY.
